BOATING SAFETY REQUIRES MORE THAN MINIMAL COMPLIANCE

Advantages of Pyrotechnic Flares Over Electronic Beacon

To attract and pinpoint rescue, a distress signal must: (a) work every time in the harshest environment, (b) be readily visible, (c) be clearly understood and (d) satisfy all USCG requirements.

Pyrotechnic flares outperform electronic beacons in all categories.

<u>Emergency Signal Requirements</u>	<u>Pyrotechnic Red Flare</u>	<u>Electronic Beacon</u>
Reliability		
- Self-contained power/Not battery dependent	Yes	No
- Subject to battery leakage, corrosion and degradation	No	Yes
- Corrosion resistant in salt environment	Yes	No
- Proven durability (50+ yrs) in marine conditions	Yes	No
Visibility		
- Brightness/candlepower	950 Candela	75 Candela*
- Brilliant red universal distress signal	Yes	No-common white*
- Constant high intensity light output for rescuers to track	Yes	No-flashing off/dark 61.5% of “run” time*
- Steady light that reflects off surrounding elements making even larger distress signal	Yes	No
- Dynamic eye-catching movement	Aerials-Yes Handheld Flame-Yes	No No
- Ability to be seen over horizon	Aerials-Yes	No
Clear Communication		
- Universally understood distress signal which requires no interpretation	Yes	No
- Clear differentiation with navigational beacons and shore lights	Yes	No
- Signal easily confused with avoidance signals	No	Yes
Full USCG Compliance		
- USCG approved day and night signal	Yes	No
- Effective daytime signal, when most boating occurs	Yes	No

*Refers to white beacons that comply with 46CFR161.013

See for Yourself. Visit <https://vimeo.com/derema/orion>

to see the performance differences between pyrotechnic flares and electronic beacons in live situations on the water. Ask yourself which emergency distress signal you are more apt to see and respond to if observed out on the water because that is what you want to carry for your family's safety.

Electronic beacons and orange distress flags are appropriate supplemental signals for pyrotechnic flares – not as replacements. Electronic beacons and orange distress flags are static signals that can be used for long duration but they are not as visible, dynamic or attention getting as pyrotechnic flares and smoke.

Red Handheld Flares - 3 Pack

Our handheld signals are safe and easy to use with a built-in protective handle. They store easily in our sealed poly bag, or can be used as replacements in our Alert/Locate™ kits.

Item #265
Replaces #865
Packed 4/Case

- 3 Handheld Red Flares
NEW Eco-Friendly Formulation
NO PERCHLORATE Chemicals
U. S. Coast Guard Approved Day/Night Signal
Brightness: Up to 950 candela
Burn Time: Up to 3 minutes
EXCEEDS U.S. Coast Guard Requirements for Brightness and Burn Time
Easy Disposal
- Packed in 4-Color Sealed Poly Bag

Bulk
Item #515
Replaces #901 BULK
Packed 48/Case

Locator® Plus - 3 Red Handheld Flares w/Whistle & Flag In Floating Case

This is the perfect kit for Lake and Coastal boaters. Contains 4 pyrotechnic signals, plus an effective daytime distress flag with lanyard. All are packed in a compact, floating case that lays flat and stores easily.

Item #234 | Replaces #534
Packed 4/Case

- 3 Handheld Red Flares
NEW Eco-Friendly Formulation
NO PERCHLORATE Chemicals
U. S. Coast Guard Approved Day/Night Signal
Brightness: Up to 950 candela
Burn Time: Up to 3 minutes
EXCEEDS U.S. Coast Guard Requirements for Brightness and Burn Time
Easy Disposal
- Safety Whistle with Lanyard
Measured at 116 db at 1 meter
Pealess design won't freeze
High visibility orange plastic construction
- 1 USCG Approved Distress Flag
U.S. Coast Guard Approved Daytime Signal
3' x 3' with 4 ties
Bright orange with international distress sign printed in black
Meets NY and OH requirements
- **ORION Safety Manual**
Contains important safety warnings, use, storage and inspection instructions for the Orion red handheld flares. Please read the enclosed Safety Manual carefully before using or storing signaling products and retain for future reference.
- **Floatable Storage Case**
- **Packed in 4-Color Chipboard Sleeve**

Inland Locate Kit w/Accessories & Air Horn In Soft Floating Case, Eco-Friendly Red Handhelds, Orange Smoke, Whistle, Mirror, & Air Horn

This kit is designed to meet both your visual and audible Coast Guard requirements.

Item #243 | Replaces #543
Packed 2/Case

- 3 Handheld Red Flares
NEW Eco-Friendly Formulation
NO PERCHLORATE Chemicals
U. S. Coast Guard Approved Day/Night Signal
Brightness: Up to 950 candela
Burn Time: Up to 3 minutes

EXCEEDS U.S. Coast Guard Requirements
for Brightness and Burn Time. Easy Disposal

- 1 Safety Whistle w/Lanyard
Measured at 116 db at 1 meter
Pealless design won't freeze
High visibility orange plastic construction
- Packed In 4-Color Poly Bag

*Kit Does Not Meet US Coast Guard Emergency Signal Requirements. The individual signals contained in the kit are USCG approved but not in sufficient quantity to meet USCG carriage requirements for regulated waters.

Electronic SOS Beacon Locator Kit w/USCG Approved Distress Flag

A great supplemental signal to augment your assortment of pyrotechnic flares.

Beacon Complies with all U.S. Coast Guard Requirements for "Night Visual Distress Signals" as found in the Code of Federal Regulations: 46 CFR 161.013

Flag Complies with U.S. Coast Guard Requirements in 46 CFR 160.072 for Daytime Signaling.

Item #547
Packed 4/Case

- Flashes bright "SOS" distress signal in Morse Code
Duration: Flashes 2 times Longer than USCG continuous run-time requirement
Brightness: Maintains constant light intensity 2.5 times longer than USCG requirement
- 1 USCG Approved Distress Flag
U.S. Coast Guard Approved Daytime Signal
3' x 3' with 4 ties
Bright orange with international distress sign printed in black
Meets NY and OH requirements
- Low battery indicator function. When turned on unit will quickflash for 5 seconds if batteries need replacing
- Multiple deployment options
Floatable- self righting design
Handheld-molded in plastic grips
Hanging- with provided lanyards

- Waterproof easy and intuitive On/Off Switch
- Requires 2 D-cell batteries (not included)
- SOLAS Grade reflective tape at waterline
- Packed in a 4-Color Plastic Case

Aerial Alert Signals

ALERT SIGNALS attract attention day or night from long distances and signal that you are in trouble. The U.S. Coast Guard recommends that you fire two aerial flares, one immediately after the other, so rescuers can confirm the sighting and/or direction of the signal.

Skyblazer II Red Aerial Flare

Perfect for the Inland and Coastal boaters who seldom travel offshore.

The 4 self-contained Skyblazer Alert aerial signals are bright, safe, waterproof, and float.

Item #859

Packed 4/Case

- 4 Skyblazer II Self-Contained Red Aerial Flares
 - U.S. Coast Guard Approved Day or Nighttime Signal
 - Altitude: Up to 450 feet
 - Brightness: Up to 16,000 candela
 - Burn Time: Up to 7 seconds each
- Packed in 4-Color Sealed Poly Bag

Bulk Packed

Item #855

Packed 36/Case

16.5 mm Compact Red Aerial Signal Kit

The perfect small boat or PWC aerial signal, even fits in a tackle box. This compact, safe signal is perfect for the Inshore Boater.

Item #528

Packed 6/Case

- **Launcher**
 - Lifetime Warranty
 - Compact
 - Corrosion Resistant
- **4 Red Aerial Flares**
 - U.S. Coast Guard Approved Day or Nighttime Signal
 - Altitude: Up to 300 feet
 - Brightness: Up to 10,000 candela
 - Burn Time: Up to 6.5 seconds each
- **Waterproof Floatable Storage Container**

Orange Case

Alert Signal Kits & Launchers

Coastal Alerter Kit w/Accessories in Neoprene Floating Soft Case 12-Gauge Launcher w/Bandolier, Red Aerials, Whistle, & Mirror

Contains aerial, visual and sound signals. When combined with handheld flares make the perfect kit for Coastal boaters.

Item #572

Packed 2/Case

- **12-Gauge Safety Launcher**
Corrosion resistant with lifetime warranty and bandolier that can hold up to 6 High Performance signals
Hammer Safety Lock
- **6 12-Gauge High Performance Red Aerial Flares**
U.S. Coast Guard Approved Day or Nighttime Signal
Altitude: Up to 500 feet
Brightness: Up to 16,000 candela
Burn Time: Up to 7 seconds each
- **1 Safety Whistle w/Lanyard**
Measured at 116 db at 1 meter
Pealess design won't freeze
High visibility orange plastic construction
- **1 Signal Mirror**
Non-corrosive material
Includes view finder and lanyard
- **ORION Safety Manual**
Contains important safety warnings, use, storage and inspection instructions for Orion signal launchers and flares (aerial and handheld). Please read the enclosed Safety Manual carefully before using or storing signaling products and retain for future reference.

- **Neoprene Storage Case**
Floats, High visibility international orange
Perfect storage solution
- **Packed in 4-Color Corrugated Carton**

Alerter Basic-4 12-Gauge Launcher & Red Aerial Flares

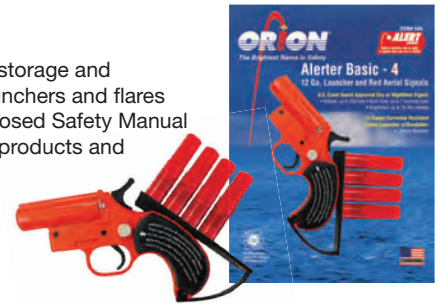

The perfect foundation for creating your own safety kit, when combined with red handheld signals, orange smoke and passive, long duration Orion beacon.

Item #584

Packed 4/Case

- **12-Gauge Safety Launcher**
Corrosion resistant with lifetime warranty and bandolier that can hold up to 6 High Performance signals
Hammer Safety Lock
- **4 12-Gauge High Performance Red Aerial Flares**
U.S. Coast Guard Approved Day or Nighttime Signal
Altitude: Up to 500 feet
Brightness: Up to 16,000 candela
Burn Time: Up to 7 seconds each

- **ORION Safety Manual**
Contains important safety warnings, use, storage and inspection instructions for Orion signal launchers and flares (aerial and handheld). Please read the enclosed Safety Manual carefully before using or storing signaling products and retain for future reference.
- **Packed in 4-Color Heat Sealed Clamshell**

12-Gauge Launcher w/Attached Bandolier

Item #580

Packed 1/Case

- **12-Gauge Safety Launcher**
Corrosion resistant with lifetime warranty and bandolier that can hold up to 6 High Performance signals
Hammer Safety Lock
- **ORION Safety Manual**
Contains important safety warnings, use, storage and inspection instructions for Orion signal launchers and flares (aerial and handheld). Please read the enclosed Safety Manual carefully before using or storing signaling products and retain for future reference.
- **Packed in Sealed Poly Bag**

25 mm Launcher w/Attached Bandolier

Item #583

Packed 4/Case

- 25 mm Launcher w/Bandolier
- Lifetime warranty
- **ORION Safety Manual**
Contains important safety warnings, use, storage and inspection instructions for Orion signal launchers and flares (aerial and handheld). Please read the enclosed Safety Manual carefully before using or storing signaling products and retain for future reference.
- **Packed in Sealed Poly Bag**

12-Gauge Converter

Item #898

Packed 6/Case

- Allows 25 MM Launcher to fire 12-Gauge Aerial Flares
- **Packed in 4-Color Clamshell**

Alert/Locate Kits

Coastal Alert/Locate Signal Kit In Neoprene Floating Case 12-Gauge Launcher w/Bandolier, Red Aerials, Eco-Friendly Red Handhelds & Orange Smoke

Our most popular signal assortment is now packed in a compact neoprene floating storage case. This is the perfect kit for any boater because it contains: aerial, handheld and smoke signaling devices.

Item #275
Replaces #575
Packed 2/Case

- **12-Gauge Safety Launcher**
Corrosion resistant with lifetime warranty and bandolier that can hold up to 6 High Performance signals
Hammer Safety Lock

ALL ORION LAUNCHERS ARE DESIGNED TO BE USED EXCLUSIVELY WITH ORION SIGNALS ONLY. USE OF ANY OTHER SIGNAL OR SHELL IS DANGEROUS AND VOIDS ALL CLAIMS AND WARRANTIES.

The Orion 12-Gauge launcher is designed to fire Orion 12-Gauge, red and white, aerial signals and Orion 12-Gauge High Performance, single and twin, red aerial signals. The Orion 25 MM launcher is designed to fire Orion 25 MM, red aerial signals and Orion 25 MM, red Parachute signals. The 25 MM Launcher, with use of an Orion 12-Gauge converter, can also fire Orion 12-Gauge, red and white, aerial signals and Orion 12-Gauge High Performance, single and twin, red aerial signals.

WHEN ON REGULATED WATERS ORION SIGNALS SHOULD ONLY BE USED IN AN EMERGENCY MARINE SITUATION. IT IS ILLEGAL TO FIRE OR IGNITE A SIGNAL ON REGULATED WATERS IN A NON EMERGENCY SITUATION. FLARES SHOULD NEVER BE POINTED AT ANYONE. ALL ORION LAUNCHERS AND SIGNALS SHOULD BE PROPERLY STORED AND KEPT OUT OF THE REACH OF CHILDREN. LAUNCHERS SHOULD NEVER BE TRANSPORTED LOADED.

Alert/Locate Kits

Coastal Alert/Locate Signal Kit w/First Aid, In Soft Floating Case 12-Gauge Launcher W/Bandolier, Red Aerials, Eco-Friendly Red Handhelds, Orange Smoke, & First Aid

SOLAS, USCG Approved Signals

SOLAS Line with Safe Trigger Ignition System, is Assembled in North America.

Our SOLAS product is assembled in North America and shipped to you with fresh manufacture dates. Parachutes utilize a 2-handed trigger system. Hand flares and smoke incorporate a “Pull Cord” Ignition System. Signals are packed in DOT Approved cartons and minimum case packs allow efficient inventory management.

SOLAS Red Parachute Signal Rocket

High powered aerial fires signal 300 meters (1,000 feet) into the air and the bright 30,000 candlepower meteor will stay aloft and burn for 40 seconds.

Item #800 Packed 4/Case

USCG Approved Nos. 160.136/A5/0,160.036/A15/0

Approve Par Transport Canadian: TC-002-032-067 • Meets SOLAS LSA code 3.1

DOT Approved shipping bracket. Custom designed for safe shipping and allows individual reshipping to your customers.

Packed in 4-Color Carton with Hang Tag

Item #805 BULK Packed 24/Case • Does not include DOT approved shipping bracket

Approved for Day or
Night Use

SOLAS Red Handheld Flare

Features telescoping handle making it compact and space saving when stowed in a liferaft. Easily extended and pull wire operated. This high intensity signal burns for 60 seconds and produces a signal with 15,000 candlepower. This is the perfect signal to help rescuers pinpoint your exact position. Will not produce hot residue harmful to inflatable life rafts.

Item #813 Packed 6/Case

USCG Approved Nos. 160.121/A5/0,160.021/A28/0

Transport Canada Approved: TC-002-032-039 • Meets SOLAS LSA code 3.2

Packed in 4-Color Carton with Hang Tag

Item #814 BULK Packed 24/Case

Approved for Day or
Night Use

SOLAS Orange Floating Smoke Flare

This is a daytime only approved signal to help rescuers pinpoint your position. Each floating canister delivers 3 minutes of a dense orange cloud. Will not harm the environment.

Item #801 Packed 4/Case

USCG Approved Nos. 160.122/A4/0,160.022/A14/0

Transport Canada Approved:: TC-002-032-040 • Meets SOLAS LSA code 3.3

Packed in 4-Color Carton with Hang Tag

Item #806 BULK Packed 18/Case

Approved for
Daytime Use Only

Non-SOLAS Commercial Signals

Day & Nighttime Flare/Smoke Flare

Combination red flare, orange smoke signal for day and nighttime signaling. Hand flare burns at 15,000 candlepower (or Candela) for 20 seconds and smoke burns for 18 seconds. Waterproof to 100 feet and floats. Built to same standards as our flares but is neither USCG nor SOLAS approved.

Item #809 Packed 10/Case

Burn Time: Up to 1 minute each
- (1) Heavy-Duty, Dry Box
High visibility orange polypropylene is corrosion resistant

New Survival Craft First Aid Kit

NOTICE: On November 14, 2022, the US Coast Guard issued a final rule which removed the Coast Guard approval for nine types of survival craft equipment, replacing the Coast Guard approvals with the manufacturer self-certifying that the equipment complies with a consensus standard. *First Aid Kits for Lifeboats and First Aid Kits for Life Rafts were among the survival craft equipment impacted by these rule changes. Under the new regulations the first aid kit contents changed slightly and now use the requirements in the International Organization for Standardization (ISO) 18813:2006 (E). The Coast Guard does not require existing vessels to replace their current first aid kits, although any medications and ointments in those kits should be replaced by their expiration date.

Item #816 | Replaces #810 & #811 | Packed 6/Case

- Ideal first aid kit for Life Rafts, Life Boats and Rescue Crafts

Bulk Cartridges

Item #712

Packed 1/Case

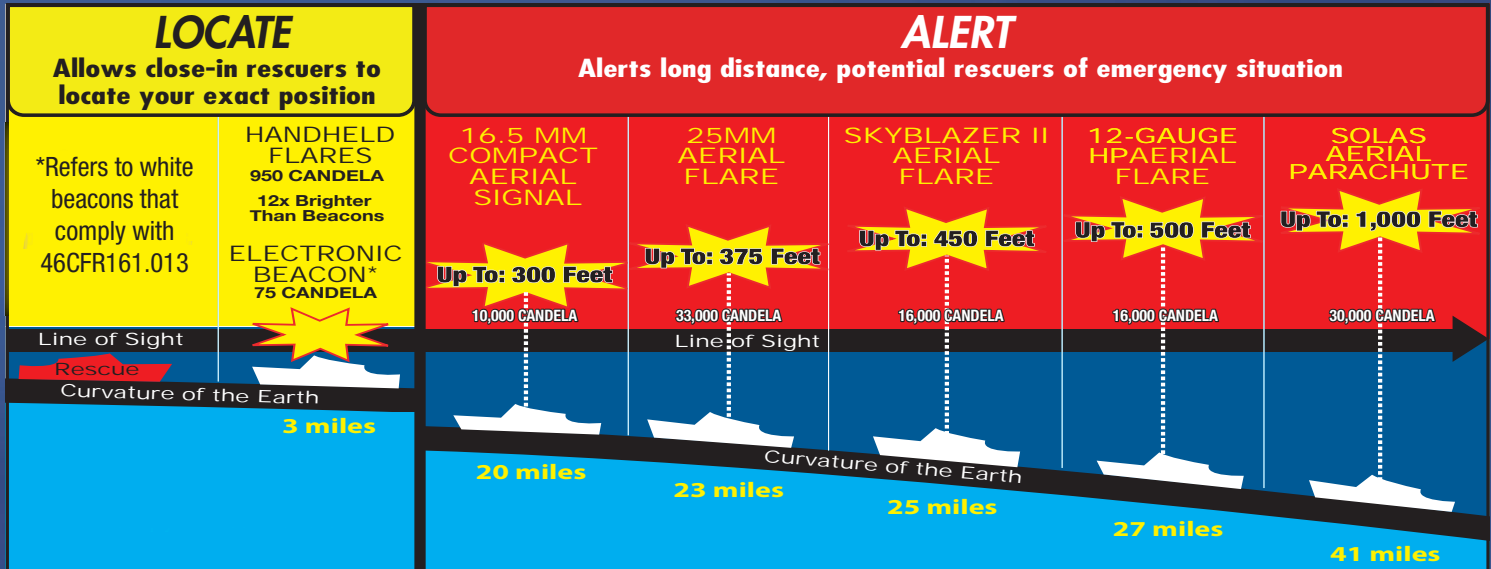

Contains 100 Pest Scare Cartridges.
Great as training aid for hunting dogs

UNDERSTANDING LOCATE VS ALERT SIGNALS

Due to the curvature of the earth and line of sight restrictions, potential rescuers can only see a handheld electronic beacon and handheld flares (**LOCATE SIGNALS**) up to 3 miles away (and often less based on weather conditions). This is why aerial flares (**ALERT SIGNALS**) should also be on your boat. **ALERT SIGNALS**, which are moving, dynamic and brilliant, can be seen as far away as 41 miles to alert potential rescuers you require assistance.

As rescuers approach, **LOCATE SIGNALS** help pinpoint your exact location.
